PROFILE

Frontend developer with six years of UI/UX and graphic design before that. I work mainly with React and TypeScript. On the backend I am a junior: I have built one full stack app with Node.js and PostgreSQL, and I am looking for a team where I can keep learning that side.

PROJECTS

Day Planner

[Live](#) [Code](#)

My first full stack app. React, TypeScript, Node.js (Hono), PostgreSQL (Drizzle)

- React frontend, a Node.js API and a PostgreSQL database with migrations.
- Sign up, login and password reset by email.
- Reminders sent as push notifications. Deployed on Render and Neon.

Projects Hub

[Live](#) [Code](#)

React, TypeScript, Vitest, React Testing Library, GitHub Actions

- Lists my projects with search and tech filters. 35 tests; GitHub Actions tests and deploys each push.

Study Night

[Live](#) [Code](#)

JavaScript, Cypress, Mocha, Parcel, GitHub Actions

- Flashcards app from a Udacity course. I wrote the tests (23 end-to-end, 8 unit) and set up linting, build and CI.
- Fixed the bugs the tests found and added saving in the browser.

EXPERIENCE

Frontend Developer and Junior Full Stack Developer

2025 – present

Neurolytics, remote

- Build the frontend of the B2C platform in React and TypeScript in an Agile team.
- Design its UI/UX as well: research, wireframes, screens, prototypes and the design system.
- Check that the live product matches the Figma designs.

Earlier design roles

UI Designer, Spadana Sanat	2019 – 2023
UI/UX Designer, Pierland Perfume (project)	2021 – 2022
Graphic Designer, Yube Cosmetics (freelance)	2019 – 2020
Graphic Designer, Kian Tanpoosh	2014 – 2017

SKILLS

Frontend

React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Vite

Backend (junior)

Node.js, Hono, REST APIs, PostgreSQL, Drizzle ORM, JWT

Testing and tools

Cypress, Vitest, React Testing Library, Mocha, Git, GitHub Actions

Design

Figma, design systems, prototyping, user flows, usability testing, accessibility (WCAG), Photoshop, Illustrator

EDUCATION

M.Sc. Digital Humanities

University of Genoa, 2023 – 2026
Human-Computer Interaction

B.Sc. Computer Software Engineering

University of Yazd, 2009 – 2013

CERTIFICATIONS

Front End Web Developer, Udacity, 2025

Python for Everybody, University of Michigan, 2023

Mobile UI Design, IxDF

AI for Designers, IxDF

UX Design for Virtual Reality, IxDF
